Workshop Stockholm 17, 18. and 19. november 2017

Expressions that make impressions!

How to interpret a song or a text, giving the listeners the possibility to feel and to understand the message in the story.

And how to work with intuition in a conscious way.

Through working with the connection between body and voice, we get to find the possibility to express true feelings. By getting ownership to the song, through understanding and relating to the story told in the song, we become true and caring artists, presenting to the listener something deeply meaningful for us, and for him. Honest and loving. Honest to self and to the listener.

A song is story told in music.

A singer is the communicator.

A communicator needs to work with his tools.

The tools shall become conscious.

The performer will feel free performing his song when the preparations are done well.

The workshop takes place on november 18. and 19. 2017 at Paradiset in Stockholm.

We shall work in the group and individually through the week-end.

Starting Friday evening at 19 to 21.

Saturday at 10 and working until 17.00.

Sunday we meet at 11.00 and work until 16.00.

Please wear something comfortable, as we shall work with the body as well as the voice.

Bring one or two a songs or texts that you know by heart. Preferably in english, but if you prefere, do it in your native tongue. I do understand some Swedish, Norwegian, German, French, Italian, and of course Danish.

Please look at my homepage www.voicetools.dk or www.barkhuus.dk for more information, and for listening to some of my songs.

I am looking very much forward to doing this workshop, which has come together because of Eva Lexells generosity. Please sign in at evalexell@gmail.com

I would like to suggest that you also take a look at my wonderful teacher David Brunettis homepage <http://www.actingsongs.com/>

I owe him great thanks. You can still buy his wonderful little book of evidence called "Acting Songs"
